MARKETING QUOTAS, AND MARKETING CERTIFICATES****Part B - Marketing Quotas****subpart iii - marketing quotas - wheat****§ 1334. Apportionment of national acreage allotment****(a) Apportionment among States; special acreage reserve**

The national allotment for wheat, less a reserve of not to exceed 1 per centum thereof for apportionment as provided in this subsection and less the special acreage reserve provided for in this subsection, shall be apportioned by the Secretary among the States on the basis of the preceding year's allotment for each such State, including all amounts allotted to the State and including for 1967 the increased acreage in the State allotted for 1966 under section 1335 of this title, adjusted to the extent deemed necessary by the Secretary to establish a fair and equitable apportionment base for each State, taking into consideration established crop rotation practices, estimated decrease in farm allotments because of loss of history, and other relevant factors. The reserve acreage set aside herein for apportionment by the Secretary shall be used

(1) to make allotments to counties in addition to the county allotments made under subsection (b) of this section, on the basis of the relative needs of counties for additional allotments because of reclamation and other new areas coming into production of wheat, or

(2) to increase the allotment for any county, in which wheat is the principal grain crop produced, on the basis of its relative need for such increase if the average ratio of wheat acreage allotment to cropland on old wheat farms in such county is less by at least 20 per centum than such average ratio on old wheat farms in an adjoining county or counties in which wheat is the principal grain crop produced or if there is a definable contiguous area consisting of at least 10 per centum of the cropland acreage in such county in which the average ratio of wheat acreage allotment to cropland on old wheat farms is less by at least 20 per centum than such average ratio on the remaining old wheat farms in such county, provided that such low ratio of wheat acreage allotment to cropland is due to the shift prior to 1951 from wheat to one or more alternative income-producing crops which, because of plant disease or sustained loss of markets, may no longer be produced at a fair profit and there is no other alternative income-producing crop suitable for production in the area or county. The increase in the county allotment under clause (2) of the preceding sentence shall be used to increase allotments for old wheat farms in the affected area to make such allotments comparable with those on similar farms in adjoining areas or counties but the average ratio of increased allotments to cropland on such farms shall not exceed the average ratio of wheat acreage allotment to cropland on old wheat farms in the adjoining areas or counties. There also shall be made available a special acreage reserve of not in excess of one million acres as determined by the Secretary to be desirable for the purposes hereof which shall be in addition to the national acreage reserve provided for in this subsection. Such special acreage reserve shall be made available to the States to make additional allotments to counties on the basis of the relative needs of counties, as determined by the Secretary, for additional allotments to make adjustments in the allotments on old wheat farms (that is, farms on which wheat has been seeded or regarded as seeded to one or more of the three crops immediately preceding the crop for which the allotment is established) on which the ratio of wheat acreage allotment to cropland on the farm is less than one-half the average ratio of wheat acreage allotment to cropland on old wheat farms in the county. Such adjustments shall not provide an allotment for any farm which would result in an allotment-cropland ratio for the farm in excess of one-half of such county average ratio and the total of such adjustments in any county shall not exceed the acreage made available therefor in the county. Such apportionment from the special acreage reserve shall be made only to counties where

wheat is a major income-producing crop, only to farms on which there is limited opportunity for the production of an alternative income-producing crop, and only if an efficient farming operation on the farm requires the allotment of additional acreage from the special acreage reserve. For the purposes of making adjustments hereunder the cropland on the farm shall not include any land developed as cropland subsequent to the 1963 crop year.

**(b) Apportionment among counties**

The State acreage allotment for wheat, less a reserve of not to exceed 3 per centum thereof for apportionment as provided in subsection (c) of this section, shall be apportioned by the Secretary among the counties in the State, on the basis of the preceding year's wheat allotment in each such county, including for 1967 the increased acreage in the county allotted for 1966 pursuant to section 1335 of this title, adjusted to the extent deemed necessary by the Secretary in order to establish a fair and equitable apportionment base for each county, taking into consideration established crop rotation practices, estimated decrease in farm allotments because of loss of history, and other relevant factors.

**(c) Apportionment among farms; overplanted allotments; reductions; notice**

(1) The allotment to the county shall be apportioned by the Secretary, through the local committees, among the farms within the county on the basis of past acreage of wheat, tillable acres, crop-rotation practices, type of soil, and topography. Not more than 3 per centum of the State allotment shall be apportioned to farms on which wheat has not been planted during any of the three marketing years immediately preceding the marketing year in which the allotment is made. For the purpose of establishing farm acreage allotments—

(i) the past acreage of wheat on any farm for 1958 or 1965 shall be the base acreage determined for the farm under the regulations issued by the Secretary for determining 1958 or 1965 farm wheat acreage allotments;

(ii) if subsequent to the determination of such base acreage the 1958 or 1965 wheat acreage allotment for the farm is increased through administrative, review, or court proceedings, the 1958 or 1965 farm base acreage shall be increased in the same proportion; and

(iii) the past acreage of wheat for 1959 and any subsequent year except 1965 shall be the wheat acreage on the farm which is not in excess of the farm wheat acreage allotment, plus, in the case wheat acreage on the farm which is not in excess of wheat acreage allotment, the acreage diverted under such wheat allotment programs: Provided, That for 1959 and subsequent years in the case of any farm on which the entire amount of the farm marketing excess is delivered to the Secretary or stored in accordance with applicable regulations to avoid or postpone payment of the penalty, the past acreage of wheat for the year in which such farm marketing excess is so delivered or stored shall be the farm base acreage of wheat determined for the farm under the regulations issued by the Secretary for determining farm wheat acreage allotments for such year, but if any part of the amount of wheat so stored is later depleted and penalty becomes due by reason of such depletion, for the purpose of establishing farm wheat acreage allotments subsequent to such depletion the past acreage of wheat for the farm for the year in which the excess was produced shall be reduced to the farm wheat acreage allotment for such year.

(2) Notwithstanding any other provision of law, each old or new farm acreage allotment for the 1962 crop of wheat as determined on the basis of a minimum national acreage allotment of fifty-five million acres shall be reduced by 10 per centum. In the event notices of farm acreage allotments for the 1962 crop of wheat have been mailed to farm operators prior to the effective date of this subparagraph (2), new notices showing the required reduction shall be mailed to farm operators as soon as practicable.

(3) Notwithstanding the provisions of paragraph (1) of this subsection, the past acreage of wheat for 1967 and any subsequent year shall be the acreage of wheat planted, plus the acreage regarded as planted, for harvest as grain on the farm which is not in excess of the farm acreage allotment.

(4) Notwithstanding any other provision of this subsection (c), the farm acreage allotment for the 1967 and any subsequent crop of wheat shall be established for each old farm by apportioning the county wheat acreage allotment among farms in the county on which wheat has been planted, or is considered to have been planted, for harvest as grain in any one of the three years immediately preceding the year for which allotments are determined on the basis of past acreage of wheat and the farm acreage allotment for the year immediately preceding the year for which the allotment is being established, adjusted as hereinafter provided. For purposes of this paragraph, the acreage allotment for the immediately preceding year may be adjusted to reflect established crop-rotation practices, may be adjusted downward to reflect a reduction in the tillable acreage on the farm, and may be adjusted upward to reflect such other factors as the Secretary determines should be considered for the purpose of establishing a fair and equitable allotment: Provided, That

(i) for the purposes of computing the allotment for any year, the acreage allotment for the farm for the immediately preceding year shall be decreased by 7 per centum if for the year immediately preceding the year for which such reduction is made neither a voluntary diversion program nor a voluntary certificate program was in effect and there was noncompliance with the farm acreage allotment for such year;

(ii) for purposes of clause (i), any farm on which the entire amount of farm marketing excess is delivered to the Secretary, stored, or adjusted to zero in accordance with applicable regulations to avoid or postpone payment of the penalty when farm marketing quotas are in effect, shall be considered in compliance with the allotment, but if any part of the amount of wheat so stored is later depleted and penalty becomes due by reason of such depletion, the allotment for such farm next computed after determination of such depletion shall be reduced by reducing the allotment for the immediately preceding year by 7 per centum; and

(iii) for purposes of clause (i) if the Secretary determines that the reduction in the allotment does not provide fair and equitable treatment to producers on farms following special crop rotation practices, he may modify such reduction in the allotment as he determines to be necessary to provide fair and equitable treatment to such producers.

**(d) Repealed. Pub. L. 89-321, title V, § 501(6), Nov. 3, 1965, 79 Stat. 1201**

**(e) Increase in acreage allotments and marketing quotas for class II durum wheat**

If, with respect to the 1962 and 1963 crops of wheat, the Secretary determines that the acreage allotments of farms producing durum wheat are inadequate to provide for the production of a sufficient quantity of durum wheat to satisfy the demands therefor (but not including export demand involving a subsidy by, or a loss to, the Federal Government), he shall increase the farm marketing quotas and acreage allotments for such crop of wheat for farms located in counties in the States of North Dakota, Minnesota, Montana, South Dakota, and California, designated by the Secretary as counties which

(1) are capable of producing durum wheat (class II), and

(2) have produced such wheat for commercial food products during one or more of the five years immediately preceding the year in which such crop is harvested. The Secretary shall determine the percentage factor by which the average acreage of durum wheat (class II) produced during the last two-year period for which statistics are available (excluding any increases in durum wheat acreage as a result of increases in wheat acreage allotments authorized by this subsection) must be increased to satisfy such demand. The wheat acreage allotment for any farm established for such crop without regard to this subsection, after reduction in the case of the 1962 crop as required by subsection (c)(2) of this section (hereinafter referred to as the "original allotment"), shall be increased by an acreage computed by multiplying the average acreage of durum wheat (class II) on the farm during such two-year period (excluding any increase in the acreage of durum wheat as a result of an increase in the wheat acreage allotment for the farm authorized by this subsection) by such percentage factor: Provided, That such increased allotment shall not exceed the cropland on the farm well suited to wheat. The increase in the wheat acreage allotment for any farm shall

be conditioned upon the production of an acreage of durum wheat (class II) at least equal to the average acreage of such wheat produced during such two-year period plus the number of acres by which the allotment is increased. Any increases in wheat acreage allotments authorized by this subsection shall be in addition to the National, State, and county wheat acreage allotments, and such increases shall not be considered in establishing future State, county, and farm allotments. The provisions of sections 1326 (b) and 1340 (6) of this title, relating to the reduction of the storage amount of wheat shall apply to the allotment for the farm established without regard to this subsection and not to the increased allotment under this subsection. As used in this subsection the term "durum wheat" means durum wheat (class II) other than the varieties known as "Golden Ball" and "Peliss". Any farm receiving an increased allotment under this subsection shall not be required as a condition of eligibility for price support, or permitted, to participate in the special 1962 wheat program formulated under section 124 of the Agricultural Act of 1961, or section 307 of the Food and Agriculture Act of 1962. The Secretary shall give growers and millers of durum wheat and manufacturers of semolina products an opportunity to present their views and recommendations, prior to making any determination hereunder.

**(f) Voluntary surrender of acreage allotment**

Any part of any 1955, 1956, or 1957 farm wheat acreage allotment on which wheat will not be planted and which is voluntarily surrendered to the county committee shall be deducted from the allotment to such farm and may be reapportioned by the county committee to other farms in the same county receiving allotments in amounts determined by the county committee to be fair and reasonable on the basis of past acreage of wheat tillable acres, crop rotation practices, type of soil, and topography. If all of the allotted acreage voluntarily surrendered is not needed in the county, the county committee may surrender the excess acreage to the State committee to be used for the same purposes as the State acreage reserve under subsection (c) of this section. Any allotment transferred under this provision shall be regarded for the purposes of subsection (c) of this section as having been planted on the farm from which transferred rather than on the farm to which transferred, except that this shall not operate to make the farm from which the allotment was transferred eligible for an allotment as having wheat planted thereon during the three-year base period: Provided, That notwithstanding any other provisions of law, any part of any 1955, 1956, or 1957 farm acreage allotment may be permanently released in writing to the county committee by the owner and operator of the farm, and reapportioned as provided herein. Acreage surrendered, reapportioned under this subsection, and planted shall be credited to the State and county in determining future acreage allotments.

**(g) Plantings in excess of allotments or where no allotment is established**

Notwithstanding any other provision of law, no acreage in the commercial wheat-producing area seeded to wheat for harvest as grain in 1958 or thereafter except 1965 in excess of acreage allotments shall be considered in establishing future State and county acreage allotments. The planting on a farm in the commercial wheat-producing area of wheat of the 1958 or any subsequent crop for which no farm wheat acreage allotment was established shall not make the farm eligible for an allotment as an old farm pursuant to the first sentence of subsection (c) of this section nor shall such farm by reason of such planting be considered ineligible for an allotment as a new farm under the second sentence of such subsection.

**(h) Omitted**

**(i) Increase in acreage allotments for any kind of wheat in short supply; storage reduction and land-use provisions inapplicable to such wheat**

If, with respect to any crop of wheat, the Secretary finds that the acreage allotments of farms producing any type of wheat are inadequate to provide for the production of a sufficient quantity of such type of wheat to satisfy the demand therefor, the wheat acreage allotment for such crop for each farm located in a county designated by the Secretary as a county which

- (1) is capable of producing such type of wheat, and

(2) has produced such type of wheat for commercial food products during one or more of the five years immediately preceding the year in which such crop is harvested, shall be increased by such uniform percentage as he deems necessary to provide for such quantity. No increase shall be made under this subsection in the wheat acreage allotment of any farm for any crop if any wheat other than such type of wheat is planted on such farm for such crop. Any increases in wheat acreage allotments authorized by this subsection shall be in addition to the National, State, and county wheat acreage allotments, and such increases shall not be considered in establishing future State, county, and farm allotments. The provisions of sections 1326 (b) and 1340 (6) of this title, relating to the reduction of the storage amount of wheat shall apply to the allotment for the farm established without regard to this subsection and not to the increased allotment under this subsection. The land-use provisions of section 1339 of this title shall not be applicable to any farm receiving an increased allotment under this subsection and the producers on such farms shall not be required to comply with such provisions as a condition of eligibility for price support.

**(j) Increased durum wheat acreage allotments to Tulelake area, California, for 1970 and subsequent years; factors determinative; effect of increased allotments on marketing allocations and diversion payments**

Notwithstanding any other provision of this chapter, the Secretary shall increase the acreage allotments for the 1970 and subsequent crops of wheat for privately owned farms in the irrigable portion of the area known as the Tulelake division of the Klamath project of California located in Modoc and Siskiyou Counties, California, as defined by the United States Department of the Interior, Bureau of Reclamation, and hereinafter referred to as the area. The increase for the area for each such crop shall be determined by adding, to the extent applications are made therefor, to the total allotments established for privately owned farms in the area for the particular crop without regard to this subsection (hereinafter referred to as the original allotments) an acreage sufficient to make available for each such crop a total allotment of twelve thousand acres for the area. The additional allotments made available by this subsection shall be in addition to the National, State, and county allotments otherwise established under this section, and the acreage planted to wheat pursuant to such increases in allotments shall not be taken into account in establishing future State, county, and farm acreage allotments except as may be desirable in providing increases in allotments for subsequent years under this subsection for the production of Durum<sup>1</sup> wheat. The Secretary shall apportion the additional allotment acreage made available under this subsection between Modoc and Siskiyou Counties on the basis of the relative needs for additional allotments for the portion of the area in each county. The Secretary shall allot such additional acreage to individual farms in the area for which applications for increased acreages are made on the basis of tillable acres, crop rotation practices, type of soil and topography, and the original allotment for the farm, if any. The increase in the wheat acreage allotment for any farm under this subsection (1) shall not be taken into account in computing the farm wheat marketing allocation under section 1379b of this title, and (2) shall be conditioned upon the production of Durum<sup>1</sup> wheat on the original allotment and on the increased acreage. The producers on a farm receiving an increased allotment under this subsection shall not be eligible for diversion payments under section 1339 of this title.

**(k) Transfer of farm wheat acreage allotments in case of natural disasters**

Notwithstanding any other provision of this chapter, if the Secretary determines that because of a natural disaster a portion of the farm wheat acreage allotments in a county cannot be timely planted or replanted, he may authorize the transfer of all or a part of the wheat acreage allotment for any farm in the county so affected to another farm in the county or in an adjoining county on which one or more of the producers on the farm from which the transfer is to be made will be engaged in the production of wheat and will share in the proceeds thereof, in accordance with such regulations as the Secretary may prescribe. Any farm allotment transferred under this subsection shall be deemed to be planted on the farm from which it was transferred for the purposes of acreage history credits under this chapter.

## Amendments

1985—Pub. L. 99–198, in amending section generally, temporarily substituted “Farm marketing quotas” for “Apportionment of national acreage allotment” in section catchline. See Effective and Termination Dates of 1985 Amendment note below.

Subsec. (a). Pub. L. 99–198 amended subsec. (a) generally, temporarily substituting provisions requiring the Secretary to establish, for each crop of wheat for which a national marketing quota under section 1332 of this title has been proclaimed, a farm marketing quota for each farm on which wheat was planted, or considered planted, for harvest during the base period for provisions which required the Secretary to apportion the national acreage allotment for wheat, less a national acreage reserve and a special reserve which were provided for herein, among the States on the basis of each State’s allotment for the preceding year, adjusted to the extent deemed necessary by the Secretary to establish a fair and equitable apportionment base for each State. See Effective and Termination Dates of 1985 Amendment note below.

Subsec. (b). Pub. L. 99–198 amended subsec. (b) generally, temporarily substituting provisions establishing a formula for determination of the farm marketing quota for provisions which required the Secretary to apportion each State’s acreage allotment for wheat among the counties of the State, less a reserve not to exceed 3 per centum thereof, on the basis of the preceding year’s wheat allotment in each such county, adjusted to the extent deemed necessary by the Secretary in order to establish a fair and equitable apportionment base for each county. See Effective and Termination Dates of 1985 Amendment note below.

Subsec. (c). Pub. L. 99–198 amended subsec. (c) generally, temporarily substituting provisions defining the circumstances under which wheat shall be considered to have been planted for harvest on the farm in any crop year for provisions relating to the apportionment among farms of each county’s allotment under this section. See Effective and Termination Dates of 1985 Amendment note below.

Subsec. (d). Pub. L. 99–198, in amending section generally, temporarily added subsec. (d).

Subsecs. (e) to (k). Pub. L. 99–198, in amending section generally, temporarily struck out subsecs. (e) to (k) as follows:

Subsec. (e) related to increase in acreage allotments and marketing quotas for class II durum wheat.

Subsec. (f) related to voluntary surrender of acreage allotments for 1955, 1956, and 1957 crops of wheat.

NB: This unofficial compilation of the U.S. Code is current as of Jan. 8, 2008 (see <http://www.law.cornell.edu/uscode/uscprint.html>).

Subsec. (g) related to plantings in excess of allotments or where no allotment was established, in the case of 1958 and subsequent crops of wheat.

Subsec. (h). There is no subsec. (h) for 1964 and subsequent crop years. Subsec. (h) was omitted pursuant to the 1963 amendment to this section by Pub. L. 88–64. See 1963 Amendments note set out under this section.

Subsec. (i) related to an increase in acreage allotments for any kind of wheat in short supply, and enumerated provisions of law inapplicable to such wheat.

Subsec. (j) related to increased durum wheat acreage allotments to the Tulelake area in California for 1970 and subsequent crops of wheat.

Subsec. (k) related to transfer of farm wheat acreage allotments in case of natural disasters.

See Effective and Termination Dates of 1985 Amendment note below.

1970—Subsec. (j). Pub. L. 91–220 removed the 1963 deadline on the Secretary’s power to increase acreage allotments, empowering him to do so for the 1970 and subsequent wheat crops, made the area increase for each crop determinable, among other factors, by the extent to which applications are received therefor, removed requirement that acreage planted to wheat pursuant to increased allotments be considered in establishing future state, county and farm acreage allotments except where such consideration may be desirable in providing increased allotments upon the production of Durum wheat in subsequent years, conditioned wheat acreage allotments upon the production of Durum wheat on the original and increased acreage allotment, prohibited consideration of the increased acreage allotment in computing the farm wheat marketing allocation under section 1379b of this title, made producers on farms receiving increased allotments ineligible for diversion payments under section 1339 of this title, and struck out provisions prohibiting such producers from receiving price support, provisions making land use rules of section 1339 of this title inapplicable to farms receiving additional allotments, and provisions relating to 1962 and 1963 wheat crops.

1968—Subsec. (a). Pub. L. 90–243 inserted provisions allowing the Secretary to make additional use, with specified limitations, of the 1 percent national wheat acreage allotment reserve in counties which have wheat as the principal grain crop, an average ratio of wheat acreage allotment to cropland on old wheat farms at least 20 percent below that in an adjoining county or alternative ratio, a low ratio caused by a shift prior to 1951 from wheat to an alternative crop or crops which have become unprofitable because of plant disease or sustained loss of markets, and no alternative income-producing crop.

1965—Subsec. (a). Pub. L. 89–321, § 501(3), substituted the preceding year’s allotment for the acreage seeded for the production of wheat over the preceding ten-year period as the basis for determining the state’s apportioned share of the national acreage allotment and made provision for a special acreage reserve to be apportioned only to counties where wheat is a major income-producing crop.

Subsec. (b). Pub. L. 89–321, § 501(4), substituted the county’s allotment covering the preceding year for the acreage seeded for the production of wheat during the ten calendar years immediately preceding the calendar year in which the national acreage allotment is determined as the basis for determining the county’s allotment.

Subsec. (c)(3), (4). Pub. L. 89–321, § 501(5), added pars. (3) and (4).

Subsec. (d). Pub. L. 89–321, § 501(6), repealed subsec. (d) dealing with farms on which the entire amount of the farm marketing excess has been delivered to the Secretary or stored in accordance with applicable provisions.

Subsec. (g). Pub. L. 89–321, § 501(7), struck out “except as prescribed in the provisos to the first sentence of subsections (a) and (b) respectively of this section” after “county acreage allotments.”

1964—Subsec. (a). Pub. L. 88–297, § 202(1), provided (1) for the apportionment among the States of the national acreage allotment for wheat less the special acreage reserve; (2) that in establishing State acreage allotments, the acreage seeded for the production of wheat plus the acreage diverted for 1965 for any farm shall be the base acreage of wheat determined for the farm under regulations for determining farm wheat acreage allotments for 1965; and (3) beginning with the 1965 crop, a special acreage reserve and uses of such reserve and apportionment to counties of such reserve.

Subsec. (b). Pub. L. 88–297, § 202(2), provided that in establishing county acreage allotments, the acreage seeded for the production of wheat plus the acreage diverted for 1965 for any farm shall be the base acreage of wheat determined for the farm under regulations for determining farm wheat acreage allotments for 1965.

Subsec. (c)(1). Pub. L. 88–297, § 202(3), inserted in third sentence, cls. (i) and (ii), “or 1965” after “1958” wherever appearing and in third sentence, cl. (iii), “except 1965” after “any subsequent year.”

Subsec. (g). Pub. L. 88–297, § 202(4), inserted in first sentence “except 1965” after “in 1958 or thereafter”.

Subsec. (k). Pub. L. 88–297, § 202(5), added subsec. (k).

NB: This unofficial compilation of the U.S. Code is current as of Jan. 8, 2008 (see <http://www.law.cornell.edu/uscode/uscprint.html>).

1963—Subsec. (h). There is no subsec. (h) for 1964 and Subsequent Wheat Crops. Pub. L. 87–703, § 313(2), redesignated former subsec. (i) (so designated through the 1963 Wheat Crop) as (h). Pub. L. 88–64, § 1(a), redesignated former subsec. (i) (so designated through the 1963 Wheat Crop) as (j).

Subsec. (i). Pub. L. 88–64, § 1(a), redesignated former subsec. (i) (so designated through the 1963 Wheat Crop) as (j). Pub. L. 87–703, § 313(4), added subsec. (i) (effective with the 1964 Wheat Crop). See 1962 Amendment note hereunder.

Subsec. (j). Pub. L. 88–64 redesignated former subsec. (i) (so designated through the 1963 Wheat Crop) as (j), inserted “privately owned” before “farms” in first and second sentences and increased from eight to twelve thousand acres the total acreage allotment for each crop.

1962—Subsec. (e). Pub. L. 87–703, §§ 308(a), 313 (1), inserted provision respecting participation in the special wheat program formulated under section 307 of the Food and Agriculture Act of 1962 and substituted “the 1962 and 1963 crops” for “any of the 1962, 1963, and 1964 crops”, respectively.

L. 87–128, § 125, authorized the Secretary to increase durum wheat acreage allotment during 1962, 1963, and 1964 crops of wheat when he determines that acreage allotments established for durum wheat farms will be inadequate to produce a sufficient quantity of durum wheat to meet demand therefor, not including export demand involving a subsidy by or loss to the Federal Government, by such percentage factor as is determined to be necessary to provide for the increase in quantity the increase not to exceed the cropland on the farm well suited to wheat and to be conditioned upon the production of an acreage of durum wheat (class II) at least equal to the average acreage of such wheat produced during prescribed two-year period plus the number of acres by which the allotment is increased, provided that any farm receiving an increased durum wheat allotment shall not be required as a condition of price support, or permitted, to participate in the special 1962 wheat diversion program, and required the Secretary to become familiar with the views and recommendations of durum wheat grower and millers and manufacturers of semolina products prior to making any determinations. Former provisions of the subsection related to increase in allotment for durum wheat farms for 1957 crop of wheat, conditioned upon the production of durum wheat (class II) on the increased acreage and determined by adding to the allotment established without regard to subsec. (e) an acreage equal to the acreage by which the original allotment exceeded the 1957 acreage on the farm of classes of wheat other than durum wheat (class II), but not exceeding the smaller of the cropland on the farm well suited to wheat or the wheat acreage on the farm.

Subsec. (i). Pub. L. 87–357 substituted “1958 through 1963” for “1958 through 1961”, and excluded from any general reduction in farm acreage allotments or farm acreage diversion program for the 1962 or 1963 wheat crop, the farms for which acreage allotments are increased under the provisions hereof, unless such reduction is specifically made applicable.

Subsec. (b). Pub. L. 85–366, § 1(2), inserted proviso that in establishing county acreage allotments acreage seeded plus acreage diverted for 1959 and subsequent years for farm on which entire marketing excess is delivered to Secretary or stored to avoid penalty shall be base acreage determined for farm by Secretary’s regulations for such year, but if such stored wheat is subsequently depleted, resulting in penalty, farm’s seeded plus diverted acreage for year excess was produced shall be reduced to acreage for such year.
