

TITLE 22 - FOREIGN RELATIONS AND INTERCOURSE
CHAPTER 32 - FOREIGN ASSISTANCE
SUBCHAPTER I - INTERNATIONAL DEVELOPMENT
Part I - Declaration of Policy; Development Assistance Authorizations

§ 2151b–4. Assistance to combat malaria

(a) Finding

Congress finds that malaria kills more people annually than any other communicable disease except tuberculosis, that more than 90 percent of all malaria cases are in sub-Saharan Africa, and that children and women are particularly at risk. Congress recognizes that there are cost-effective tools to decrease the spread of malaria and that malaria is a curable disease if promptly diagnosed and adequately treated.

(b) Policy

It is a major objective of the foreign assistance program of the United States to provide assistance for the prevention, control, treatment, and cure of malaria.

(c) Authorization

To carry out this section and consistent with section 2151b (c) of this title, the President is authorized to furnish assistance, on such terms and conditions as the President may determine, for the prevention, treatment, control, and elimination of malaria.

(d) Coordination

In carrying out this section, the President shall coordinate with the World Health Organization, the Global Fund to Fight AIDS, Tuberculosis, and Malaria, the Department of Health and Human Services (the Centers for Disease Control and Prevention and the National Institutes of Health), and other organizations with respect to the development and implementation of a comprehensive malaria control program.
