§ 3001. Congressional statement of purpose

It is the purpose of this chapter to promote, through appropriate means and on an economically sustainable basis, the development and expansion of direct marketing of agricultural commodities from farmers to consumers. To accomplish this objective, the Secretary of Agriculture (hereinafter referred to as the “Secretary”) shall initiate and coordinate a program designed to facilitate direct marketing from farmers to consumers for the mutual benefit of consumers and farmers.

§ 3002. Definitions

For purposes of this chapter, the term “direct marketing from farmers to consumers” shall mean the marketing of agricultural commodities at any marketplace (including, but not limited to, roadside stands, city markets, and vehicles used for house-to-house marketing of agricultural commodities) established and maintained for the purpose of enabling farmers to sell (either individually or through a farmers’ organization directly representing the farmers who produced the commodities being sold) their agricultural commodities directly to individual consumers, or organizations representing consumers, in a manner calculated to lower the cost and increase the quality of food to such consumers while providing increased financial returns to the farmers.

§ 3003. Survey

The Secretary shall provide, through the Economic Research Service of the United States Department of Agriculture, or whatever agency or agencies the Secretary considers appropriate, an annual survey of existing methods of direct marketing from farmers to consumers in each State.

§ 3004. Direct marketing assistance within the States

(a) In general

In order to promote the establishment and operation of direct marketing from farmers to consumers, the Secretary shall provide that funds appropriated to carry out this section be utilized by State departments of agriculture and the Secretary for the purpose of conducting or facilitating activities which will initiate, encourage, develop, or coordinate methods of direct marketing from farmers to consumers within or among the States. Such funds shall be allocated to a State on the basis of the feasibility of direct marketing from farmers to consumers within that State as compared to other States and shall be allocated within a State to the State department of agriculture and to the Secretary on the basis of the types of activities which are needed in the State, as determined by the Secretary. The activities shall include, but shall not be limited to—

1. Sponsoring conferences which are designed to facilitate the sharing of information (among farm producers, consumers, and other interested persons or groups) concerning the establishment and operation of direct marketing from farmers to consumers;
2. Compiling laws and regulations relevant to the conduct of the various methods of such direct marketing within the State, formulating drafts of enabling legislation needed to facilitate such direct marketing, determining feasible locations for additional facilities for such direct marketing, and preparing and disseminating practical information on the establishment and operation of such direct marketing; and
3. Providing technical assistance for the purpose of aiding interested individuals or groups in the establishment of arrangements for direct marketing from farmers to consumers.

(b) Development of farmers’ markets

The Secretary shall—
