Short Title
SUBCHAPTER II—NATIONAL FOREST-DEPENDENT RURAL COMMUNITIES

§ 6611. Findings and purposes

(a) Findings

The Congress finds that—

(1) the economic well-being of rural America is vital to our national growth and prosperity;
(2) the economic well-being of many rural communities depends upon the goods and services that are derived from National Forest System land;
(3) the economies of many of these communities suffer from a lack of industrial and business diversity;
(4) this lack of diversity is particularly serious in communities whose economies are predominantly dependent on timber and recreation resources and where management decisions made on National Forest System land by Federal and private organizations may disrupt the supply of those resources;
(5) the Forest Service has expertise and resources that could be directed to promote modernization and economic diversification of existing industries and services based on natural resources;
(6) the Forest Service has the technical expertise to provide leadership, in cooperation with other governmental agencies and the private sector, to assist rural communities dependent upon National Forest System land resources to upgrade existing industries and diversify by developing new economic activity in non-forest-related industries; and
(7) technical assistance, training, education, and other assistance provided by the Department of Agriculture can be targeted to provide immediate help to those rural communities in greatest need.

(b) Purposes

The purposes of this subchapter are—

(1) to provide assistance to rural communities that are located in or near National Forest System land and that are economically dependent upon natural resources or are likely to be economically disadvantaged by Federal or private sector land management practices;
(2) to aid in diversifying such communities’ economic bases; and
(3) to improve the economic, social, and environmental well-being of rural America.

Amendments

Subsec. (a)(5). Pub. L. 106–113, § 1000(a)(3) [title III, § 345(a)(1)(C)], substituted “natural resources;” for “forest resources;”.
Subsec. (b)(1). Pub. L. 106–113, § 1000(a)(3) [title III, § 345(a)(2)], substituted “National Forest System land” for “national forests” and “natural resources” for “forest resources”.

(B) any county that is not contained within a Metropolitan Statistical Area as defined by the United States Office of Management and Budget, in which at least 15 percent of the total primary and secondary labor and proprietor income is derived from forestry, wood products, and forest-related industries such as recreation, forage production, and tourism and that is located within the boundary, or within 100 miles of the boundary, of a national forest.

The action team may also identify opportunities to use value-added products and services derived from National Forest System land resources.

(c) Organization

The Secretary shall design and organize any action team established pursuant to subsection (b) of this section to meet the unique needs of the requesting rural community. Each action team shall be directed by an employee of the Forest Service and may include personnel from other agencies within the Department of Agriculture, from other Federal and State departments and agencies, and from the private sector.

(d) Cooperation

In preparing action plans, the Secretary may cooperate with State and local governments, universities, private companies, individuals, and nonprofit organizations for procurement of services determined necessary or desirable.

Such grants, cooperative agreements, and contracts may be with the affected rural community, State and local governments, universities, corporations, and other persons.

(c) Limitation

In calculating the Federal contribution, the Secretary shall take into account the fair market value of equipment, personnel, and services provided.
