§ 1901. Congressional findings and declaration of policy

The Congress finds and declares that—

(a) the level of technology of mineral exploration and development has changed radically in recent years and continued application of the mining laws of the United States to those areas of the National Park System to which it applies, conflicts with the purposes for which they were established; and

(b) all mining operations in areas of the National Park System should be conducted so as to prevent or minimize damage to the environment and other resource values, and, in certain areas of the National Park System, surface disturbance from mineral development should be temporarily halted while Congress determines whether or not to acquire any valid mineral rights which may exist in such areas.

Short Title

Pub. L. 94–429, which enacted this chapter, amended sections 123 and 450y–2 of this title, and repealed sections 350, 350a, 447, and 450z of this title, is popularly known as the “Mining in the Parks Act”.

§ 1902. Preservation and management of areas by Secretary of the Interior; promulgation of regulations

In order to preserve for the benefit of present and future generations the pristine beauty of areas of the National Park System, and to further the purposes of sections 1, 2, 3, and 4 of this title, and the individual organic Acts for the various areas of the National Park System, all activities resulting from the exercise of valid existing mineral rights on patented or unpatented mining claims within any area of the National Park System shall be subject to such regulations prescribed by the Secretary of the Interior as he deems necessary or desirable for the preservation and management of those areas.

§§ 1903 to 1906. Omitted

Codification

Section 1903, Pub. L. 94–429, § 4, Sept. 28, 1976, 90 Stat. 1343, provided for a 4-year cessation of certain mining operations within the boundaries of Death Valley National Monument, Mount McKinley National Park, and Organ Pipe Cactus National Monument, subject to exceptions.
§ 1907. Recordation of mining claims; publication of notice

All mining claims under the Mining Law of 1872, as amended and supplemented (30 U.S.C. chapters 2, 12A, and 16 and sections 161 and 162) which lie within the boundaries of units of the National Park System shall be recorded with the Secretary of the Interior within one year after September 28, 1976. Any mining claim not so recorded shall be conclusively presumed to be abandoned and shall be void. Such recordation will not render valid any claim which was not valid on September 28, 1976, or which becomes invalid thereafter. Within thirty days following September 28, 1976, the Secretary shall publish notice of the requirement for such recordation in the Federal Register. He shall also publish similar notices in newspapers of general circulation in the areas adjacent to those units of the National Park System listed in section 3 of this Act.

Section 3 of this Act, referred to in text, is section 3 of Pub. L. 94–429, which amended sections 123 and 450y–2 of this title; repealed sections 350, 350a, 447, and 450z of this title; and repealed act June 22, 1936 (49 Stat. 1817) which was not classified to the Code. The units of the National Park System listed in such section 3 are: Crater Lake National Park, Mount McKinley National Park, Death Valley National Monument, Glacier Bay National Monument, Coronado National Memorial, and Organ Pipe Cactus National Monument.

§ 1908. Damage to natural and historical landmarks; procedures for determination and enforcement of abatement of damaging activities

(a) Whenever the Secretary of the Interior finds on his own motion or upon being notified in writing by an appropriate scientific, historical, or archeological authority, that a district, site, building, structure, or object which has been found to be nationally significant in illustrating natural history or the history of the United States and which has been designated as a natural or historical landmark may be irreparably lost or destroyed in whole or in part by any surface mining activity, including exploration for or removal or production of minerals or materials, he shall notify the person conducting such activity and submit a report thereon, including the basis for his finding that such activity may cause irreparable loss or destruction of a national landmark, to the Advisory Council on Historic Preservation, with a request for advice of the Council as to alternative measures that may be taken by the United States to mitigate or abate such activity.

(b) Omitted

§ 1909. Severability

If any provision of this chapter is declared to be invalid, such declaration shall not affect the validity of any other provision herein.

The holder of any patented or unpatented mining claim subject to this chapter who believes he has suffered a loss by operation of this chapter, or by orders or regulations issued pursuant thereto, may bring an action in a United States district court to recover just compensation, which shall be awarded if the court finds that such loss constitutes a taking of property compensable under the Constitution.

Nothing in this chapter shall be construed to limit the authority of the Secretary to acquire lands and interests in lands within the boundaries of any unit of the National Park System. The Secretary is to give prompt and careful consideration to any offer made by the owner of any valid right or other property within the areas named in section 1905 of this title to sell such right or other property, if such owner notifies the Secretary that the continued ownership of such right or property is causing, or would result in, undue hardship.
