CHAPTER 85—MARINE TURTLE CONSERVATION

6603. Marine turtle conservation assistance.
6605. Advisory group.
6606. Authorization of appropriations.
6607. Report to Congress.

§ 6601. Findings and purposes

(a) Findings

The Congress finds that—

(1) marine turtle populations have declined to the point that the long-term survival of the loggerhead, green, hawksbill, Kemp’s ridley, olive ridley, and leatherback turtle in the wild is in serious jeopardy;

(2) 6 of the 7 recognized species of marine turtles are listed as threatened or endangered species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), and all 7 species have been included in Appendix I of CITES;

(3) because marine turtles are long-lived, late-maturing, and highly migratory, marine turtles are particularly vulnerable to the impacts of human exploitation and habitat loss;

(4) illegal international trade seriously threatens wild populations of some marine turtle species, particularly the hawksbill turtle;

(5) the challenges facing marine turtles are immense, and the resources available have not been sufficient to cope with the continued loss of nesting habitats caused by human activities and the consequent diminution of marine turtle populations;

(6) because marine turtles are flagship species for the ecosystems in which marine turtles are found, sustaining healthy populations of marine turtles provides benefits to many other species of wildlife, including many other threatened or endangered species;

(7) marine turtles are important components of the ecosystems that they inhabit, and studies of wild populations of marine turtles have provided important biological insights;

(8) changes in marine turtle populations are most reliably indicated by changes in the numbers of nests and nesting females; and

(9) the reduction, removal, or other effective addressing of the threats to the long-term viability of populations of marine turtles will require the joint commitment and effort of—

(A) countries that have within their boundaries marine turtle nesting habitats; and

(B) persons with expertise in the conservation of marine turtles.

(b) Purpose

The purpose of this chapter is to assist in the conservation of marine turtles and the nesting habitats of marine turtles in foreign countries by supporting and providing financial resources for projects to conserve the nesting habitats, conserve marine turtles in those habitats, and address other threats to the survival of marine turtles.

§ 6602. Definitions

In this chapter:

(1) CITES

(2) Conservation

The term “conservation” means the use of all methods and procedures necessary to protect nesting habitats of marine turtles in foreign countries and of marine turtles in those habitats, including—

(A) protection, restoration, and management of nesting habitats;

(B) onsite research and monitoring of nesting populations, nesting habitats, annual reproduction, and species population trends;

(C) assistance in the development, implementation, and improvement of national and regional management plans for nesting habitat ranges;

(D) enforcement and implementation of CITES and laws of foreign countries to—

(i) protect and manage nesting populations and nesting habitats; and

(ii) prevent illegal trade of marine turtles;

(E) training of local law enforcement officials in the interdiction and prevention of—

(i) the illegal killing of marine turtles on nesting habitat; and

(ii) illegal trade in marine turtles;

(F) initiatives to resolve conflicts between humans and marine turtles over habitat used by marine turtles for nesting;

(G) community outreach and education; and

(H) strengthening of the ability of local communities to implement nesting population and nesting habitat conservation programs.

(3) Fund

The term “Fund” means the Marine Turtle Conservation Fund established by section 6604 of this title.

(4) Marine turtle

(A) In general

The term “marine turtle” means any member of the family Cheloniidae or Dermochelyidae.

(B) Inclusions

The term “marine turtle” includes—

(i) any part, product, egg, or offspring of a turtle described in subparagraph (A); and

(ii) a carcass of such a turtle.

§ 6603. Marine turtle conservation assistance

(a) In general

Subject to the availability of funds and in consultation with other Federal officials, the Secretary shall use amounts in the Fund to provide financial assistance for projects for the conservation of marine turtles for which project proposals are approved by the Secretary in accordance with this section.

(b) Project proposals

(1) Eligible applicants

A proposal for a project for the conservation of marine turtles may be submitted to the Secretary by—

(A) any wildlife management authority of a foreign country that has within its boundaries marine turtle nesting habitat if the activities of the authority directly or indirectly affect marine turtle conservation; or

(B) any other person or group with the demonstrated expertise required for the conservation of marine turtles.

(2) Required elements

A project proposal shall include—

(A) a statement of the purposes of the project;

(B) the name of the individual with overall responsibility for the project;

(C) a description of the qualifications of the individuals that will conduct the project;

(D) a description of—

(i) methods for project implementation and outcome assessment;

(ii) staff and community management for the project; and

(iii) the logistics of the project;

(E) an estimate of the funds and time required to complete the project;

(F) evidence of support for the project by appropriate governmental entities of the countries in which the project will be conducted, if the Secretary determines that such support is required for the success of the project;

(G) information regarding the source and amount of matching funding available for the project; and

(H) any other information that the Secretary considers to be necessary for evaluating the eligibility of the project for funding under this chapter.

(c) Project review and approval
(1) **In general**

The Secretary shall—

(A) not later than 30 days after receiving a project proposal, provide a copy of the proposal to other Federal officials, as appropriate; and

(B) review each project proposal in a timely manner to determine whether the proposal meets the criteria specified in subsection (d).

(2) **Consultation; approval or disapproval**

Not later than 180 days after receiving a project proposal, and subject to the availability of funds, the Secretary, after consulting with other Federal officials, as appropriate, shall—

(A) consult on the proposal with the government of each country in which the project is to be conducted;

(B) after taking into consideration any comments resulting from the consultation, approve or disapprove the project proposal; and

(C) provide written notification of the approval or disapproval to the person that submitted the project proposal, other Federal officials, and each country described in subparagraph (A).

(d) **Criteria for approval**

The Secretary may approve a project proposal under this section if the project will help recover and sustain viable populations of marine turtles in the wild by assisting efforts in foreign countries to implement marine turtle conservation programs.

(e) **Project sustainability**

To the maximum extent practicable, in determining whether to approve project proposals under this section, the Secretary shall give preference to conservation projects that are designed to ensure effective, long-term conservation of marine turtles and their nesting habitats.

(f) **Matching funds**

In determining whether to approve project proposals under this section, the Secretary shall give preference to projects for which matching funds are available.

(g) **Project reporting**

(1) **In general**

Each person that receives assistance under this section for a project shall submit to the Secretary periodic reports (at such intervals as the Secretary may require) that include all information that the Secretary, after consultation with other government officials, determines is necessary to evaluate the progress and success of the project for the purposes of ensuring positive results, assessing problems, and fostering improvements.

(2) **Availability to the public**
