§ 757a. Anadromous, Great Lakes, and Lake Champlain fisheries

(a) Conservation, development, and enhancement; cooperative agreements; costs

For the purpose of conserving, developing, and enhancing within the several States the anadromous fishery resources of the Nation that are subject to depletion from water resources developments and other causes, or with respect to which the United States has made conservation commitments by international agreements, and for the purpose of conserving, developing, and enhancing the fish in the Great Lakes and Lake Champlain that ascend streams to spawn, the Secretary of the Interior is authorized to enter into cooperative agreements with one or more States, acting jointly or severally, that are concerned with the development, conservation, and enhancement of such fish, and, whenever he deems it appropriate, with other non-Federal interests. Such agreements shall describe
(1) the actions to be taken by the Secretary and the cooperating parties,
(2) the benefits that are expected to be derived by the States and other non-Federal interests,
(3) the estimated cost of these actions,
(4) the share of such costs to be borne by the Federal Government and by the States and other non-Federal interests: Provided, That, except as provided in subsection (c) of this section, the Federal share, including the operation and maintenance costs of any facilities constructed by the Secretary pursuant to sections 757a to 757f of this title, which he annually determines to be a proper Federal cost, shall not exceed 50 per centum of such costs exclusive of the value of any Federal land involved: Provided further, That the non-Federal share may be in the form of real or personal property, the value of which will be determined by the Secretary, as well as money,
(5) the term of the agreement,
(6) the terms and conditions for disposing of any real or personal property acquired by the Secretary during or at the end of the term of the agreement, and
(7) such other terms and conditions as he deems desirable.

(b) Operation, management, and administration of property; research

(1) The Secretary may also enter into agreements with the States for the operation of any facilities and management and administration of any lands or interests therein acquired or facilities constructed pursuant to sections 757a to 757f of this title.

(2) In carrying out responsibilities under this section, the Secretary shall conduct, promote, and encourage research in preparation for the implementation of the use of ecosystems and interspecies approaches to the conservation and management of anadromous and Great Lakes fishery resources.

(c) Increase of Federal share

(1) Whenever two or more States having a common interest in any basin jointly enter into a cooperative agreement with the Secretary under subsection (a) of this section to carry out a research and development program to conserve, develop, and enhance anadromous fishery resources of the Nation, or fish in the Great Lakes and Lake Champlain that ascend streams to spawn, the Federal share of the program costs shall be increased to a maximum of 662/3 per centum. For the purpose of this subsection, the term “basin” includes rivers and their tributaries, lakes, and other bodies of water or portions thereof.

(2) In the case of any State that has implemented an interstate fisheries management plan for anadromous fishery resources, prepared by an interstate commission, the Federal share of any grant made under this section to carry out activities required by such plan shall be up to 90 percent. For purposes of this paragraph, the term “interstate commission” means—

(A) the commission established by the Atlantic States Marine Fisheries Compact (as consented to and approved by Public Law 80–77 \(^1\)), approved May 4, 1942 (56 Stat. 267);

(B) the commission established by the Pacific Marine Fisheries Compact (as consented to and approved by Public Law 80–232 \(^1\)), approved July 24, 1947 (16 Stat. 419); and

(C) the commission established by the Gulf States Marine Fisheries Compact (as consented to and approved by Public Law 81–66), approved May 19, 1949 (63 Stat. 70).

§ 757e. Application to Columbia River basin

Sections 757a to 757f of this title shall not be construed to affect, modify, or apply to the same area as the provisions of sections 755 to 757 of this title. The State of Idaho shall be eligible on
an equal standing with other States for Federal funding for purposes authorized by sections 757a to 757f of this title.

**Codification**

Although the intent of Congress to amend this section is clear from the directory language of Pub. L. 98–146 which states that the sentence relating to the eligibility of the State of Idaho be added to “16 U.S.C. 757e”, that directory language has been editorially interpreted as directing the addition of that sentence to section 5 of Pub. L. 89–304, because Title 16 of the United States Code [this title] has never been enacted into positive law and its sections are therefore not susceptible of amendment as sections of “16 U.S.C.—” and because section 5 of Pub. L. 89–304 is the statute which was classified to, and serves as the source for 16 U.S.C. 757e [this section].

**Amendments**

1983—Pub. L. 98–146 inserted provision that the State of Idaho shall be eligible on an equal standing with other States for Federal funding for purposes authorized by sections 757a to 757f of this title.

Such recommendations and any enforcement measures initiated pursuant thereto by the Secretary of Health and Human Services shall be designed to enhance the quality of such waters, and shall take into consideration all other legitimate uses of such waters.

**Change of Name**

“Secretary of Health and Human Services” substituted in text for “Secretary of Health, Education, and Welfare” pursuant to section 509(b) of Pub. L. 96–88, which is classified to section 3508 (b) of Title 20, Education.
