CHAPTER 30—INTERNATIONAL COOPERATION IN HEALTH AND MEDICAL RESEARCH

Sec.
2101. Statement of purpose.
2102. Authority of Secretary.
2103. Authority of President.
2104. Authority of Federal officers and agencies unaffected.

§ 2101. Statement of purpose

It is the purpose of this chapter—

(1) to advance the status of the health sciences in the United States and thereby the health of the American people through cooperative endeavors with other countries in health research, and research training; and

(2) to advance the international status of the health sciences through cooperative enterprises in health research, research planning, and research training.

References in Text

This chapter, referred to in text, was in the original “this joint resolution”, which enacted this chapter and section 308 of the Public Health Service Act (act July 1, 1944, ch. 373, 58 Stat. 682). Such section 308 was redesignated section 307 by Pub. L. 93–353, July 23, 1974, title I, § 106, 88 Stat. 367, and is classified to section 242l of Title 42, The Public Health and Welfare.

Recital

Pub. L. 86–610 provided that:

“Whereas it is recognized that disease and disability are the common enemies of all nations and peoples, and that the means, methods, and techniques for combating and abating the ravages of disease and disability and for improving the health and health standards of man should be sought and shared, without regard to national boundaries and divisions; and

“Whereas advances in combating and abating disease and in the positive promotion of human health can be stimulated by supporting and encouraging cooperation among scientists, research workers, and teachers on an international basis, with consequent benefit to the health of our people and of all peoples; and

“Whereas there already exist tested means for international cooperation in matters relating to health, including the World Health Organization, the Pan American Health Organization, and the United Nations Children’s Fund (UNICEF), with which the United States is identified and associated, and it is highly desirable that the United States establish domestic machinery for the maximum mobilization of its health research resources, the more efficiently to cooperate with and support the research, research-training and research-planning endeavors of such international organizations: Therefore be it * * *”.

Short Title

Section 1 of Pub. L. 86–610 provided that: “This joint resolution [enacting this chapter and section 242l of Title 42, The Public Health and Welfare] may be cited as the ‘International Health Research Act of 1960’.”

Swine Influenza Study

Pub. L. 94–302, title III, § 301, May 31, 1976, 90 Stat. 596, provided that:

“(a) The Congress finds and declares that—

“(1) the problems posed by swine influenza transcend national and political boundaries;

“(2) no one country, or even one portion of the world, can singularly undertake the search for a worldwide solution to the problems posed by swine influenza;
“(3) the global nature of swine influenza demands international cooperation and coordination in the investigation and planning for effective control of swine influenza;

“(4) the Public Health Service of the United States has invited the World Health Organization of the United Nations and its International Influenza Reference Centers to participate in the investigation and planning for the control of swine influenza;

“(5) special collaboration has already been established among the United States, the United Kingdom, and Canada for mutual participation in the investigation and planning for the control of swine influenza;

“(6) the United States Department of State and the Public Health Service of the United States have joint programs to provide information to foreign countries on the nature and extent of swine influenza and the methods necessary to control it; and

“(7) the technology of the United States for the surveillance of virus disease and vaccine production should be made available to foreign countries.

“(b) It is the sense of the Congress that the President should furnish assistance to foreign countries and international organizations for the investigation and planning for the control of swine influenza.”

Ex. Ord. No. 13193. Federal Leadership on Global Tobacco Control and Prevention

Ex. Ord. No. 13193, Jan. 18, 2001, 66 F.R. 7387, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

Section 1. Policy. It shall be the policy of the executive branch to take strong action to address the potential global epidemic of diseases caused by tobacco use. The executive branch shall undertake activities to increase its capacity to address global tobacco prevention and control issues through coordinated domestic action, limited bilateral assistance to individual nations, and support to multilateral organizations. International activities shall be directed towards deterring children from tobacco use, protecting nonsmokers, and providing information about the adverse health effects of tobacco use and the health benefits of cessation.

Sec. 2. Responsibilities of Federal Departments and Agencies. (a) Tobacco Trade Policy. In the implementation of international trade policy, executive departments and agencies shall not promote the sale or export of tobacco or tobacco products, or seek the reduction or removal of foreign government restrictions on the marketing and advertising of such products, provided that such restrictions are applied equally to all tobacco or tobacco products of the same type. Departments and agencies are not precluded from taking necessary actions in accordance with the requirements and remedies available under applicable United States trade laws and international agreements to ensure nondiscriminatory treatment of United States products. Nothing in this Executive Order shall be construed (1) to modify the annual executive branch guidance to United States diplomatic posts on health, trade, and commercial aspects of tobacco, or (2) to affect any negotiating position of the United States on the Framework Convention on Tobacco Control.

(b) The Department of Health and Human Services’ (HHS) Role in Tobacco Trade Policy Deliberations. The HHS shall be included in all deliberations of interagency working groups, chaired by the United States Trade Representative (USTR), that address issues relating to trade in tobacco and tobacco products. Through such participation, HHS shall advise the USTR, and other interested Federal agencies, of the potential public health impact of any tobacco-related trade action that is under consideration. Upon conclusion of a trade agreement that includes provisions specifically addressing tobacco or tobacco products, the USTR shall produce and make publicly available a summary describing those provisions.

(c) International Tobacco Control Needs Assessment. The HHS, with the cooperation of the Departments of State, Commerce, and Agriculture, and in consultation with the appropriate national Ministry of Health, shall conduct a pilot assessment of tobacco use in a country other than the United States. Such assessment will be carried out through a compilation and review of surveys and other needs assessments already available and include:

(1) initial estimates of the burden of disease and other public health consequences of tobacco use;

(2) the status of tobacco control regulatory measures in place to curtail tobacco consumption and tobacco related disease; and

(3) an analysis of the marketing, distribution, and manufacturing practices of tobacco companies in given regions, and the impact of those practices on smoking rates, particularly among women and children. Such assessment shall be prepared and provided to interested agencies and other parties not later than December 31, 2001, and be updated as practicable.

(d) Research and Training in Tobacco Control. The HHS will develop a research and training program linking institutions in the United States and certain other countries in the field of tobacco control. Emphasis will be placed
on the collection of standardized and comparable surveillance data; networks for communication, information and best practices; and the development and evaluation of culturally-targeted approaches to preventing tobacco use and increasing quit rates, especially among women and children.

Sec. 3. General. (a) Executive departments and agencies shall carry out the provisions of this order to the extent permitted by law and consistent with their statutory and regulatory authorities and their enforcement mechanisms.

(b) This order clarifies and strengthens Administration policy and does not create any right or benefit, substantive or procedural, enforceable at law by a party against the United States, its officers or employees, or any other person.

William J. Clinton.

§ 2102. Authority of Secretary

(a) Use of health research and research training resources

To carry out the purposes of clause (1) of section 2101 of this title, the Secretary of Health, Education, and Welfare (hereafter referred to as the “Secretary”) may in the exercise of his responsibilities under the Vocational Rehabilitation Act, sections 191 to 194 of title 42, and any other provision of law, to conduct and support health research and research training, including research and research training relating to the rehabilitation of the handicapped, make such use of health research and research training resources in participating foreign countries as he may deem necessary and desirable.

(b) Fellowships; equipment, meetings and conferences; interchange of scientists and experts; consultants; compensation and travel expenses

To carry out his responsibilities under this section the Secretary may—

(1) establish and maintain fellowships in the United States and in participating foreign countries;

(2) make grants to public institutions or agencies and to nonprofit private institutions or agencies in the United States and in participating foreign countries for the purpose of establishing and maintaining fellowships;

(3) make grants or loans of equipment, medical, biological, physical, or chemical substances or other materials, for use by public institutions or agencies, or nonprofit private institutions or agencies, or by individuals, in participating foreign countries;

(4) participate and otherwise cooperate in any international health or medical research or research training meetings, conferences, or other activities;

(5) facilitate the interchange between the United States and participating foreign countries, and among participating foreign countries, of research scientists and experts who are engaged in experiments and programs of research or research training, and in carrying out such purpose may pay per diem compensation, subsistence, and travel for such scientists and experts when away from their places of residence at rates not to exceed those provided in section 5703 of title 5 for persons in the Government service intermittently employed; and

(6) procure, in accordance with the provisions of section 3109 of title 5, the temporary or intermittent services of experts or consultants; individuals so employed shall receive compensation at a rate to be fixed by the Secretary, but not in excess of $50 per diem, including travel time, and while away from their homes or regular places of business may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5 for persons in the Government service employed intermittently.

(c) Definitions

For the purposes of this section—

(1) The term “health research” shall include, but not be limited to, research, investigations, and studies relating to causes and methods of prevention of accidents, including but not limited to highway and aviation accidents.

(2) The term “participating foreign countries” means those foreign countries which cooperate with the United States in carrying out the purposes of this section.
§ 2103. Authority of President

(a) Use of foreign currencies and credits

It is the sense of Congress that the President should use his authority under the Constitution and laws of the United States to accomplish the purposes of section 2101 of this title and in accomplishing such purposes

(1) use to the fullest extent practicable foreign currencies or credits available for utilization by the United States,

(2) enter into agreements to use foreign currencies and credits available to other nations for use with the agreement of the United States, and

(3) use any other foreign currencies and credits which may be made available by participating foreign countries.

(b) Disease and health deficiency investigations, experiments, and studies; rehabilitation

To carry out the purposes of section 2101 of this title the President, in cooperation with participating foreign countries, is authorized to encourage, support, and promote the planning and conduct of, and training for, research investigations, experiments, and studies in the United States and in participating foreign countries relating to the causes, diagnosis, treatment, control, and prevention of diseases and impairments of mankind (including nutritional and other health deficiencies) or to the rehabilitation of the handicapped.

(c) Fellowships; equipment; technical assistance; interchange of scientists and experts; compensation and travel expenses; health science programs and projects; meetings and conferences; scientific publications

To carry out his responsibilities under this chapter the President may—

(1) establish and maintain fellowships in participating foreign countries;

(2) make financial grants to establish and maintain fellowships, and for other purposes, to public institutions and agencies and to nonprofit private institutions and agencies, and to individuals in participating foreign countries, or contract with such institutions, agencies, or individuals without regard to section 3324 (a) and (b) of title 31 and section 6101 of title 41;
(3) make grants or loans of equipment, medical, biological, physical, or chemical substances or other materials, for use by such institutions, agencies, or individuals;

(4) furnish technical assistance and advice to such institutions or agencies and in carrying out such purposes may pay the compensation and expenses of scientists and experts from the United States and other participating foreign countries;

(5) facilitate the interchange among participating foreign countries of scientists and experts (including the payment of travel and subsistence for such scientists and experts when away from their places of residence);

(6) cooperate and assist in the planning and conduct of research, research planning, and research training programs and projects by groups engaged in, or concerned with, research or research training endeavors in the health sciences, and, through financial grants or other appropriate means, assist in special research, research planning, or research training projects conducted by or under the auspices of such groups where they can effectively carry out such activities contemplated by this joint resolution;

(7) encourage and support international communication in the sciences relating to health by means of calling or cooperating in the convening, and financing or contributing to the financing of the expenses of, international scientific meetings and conferences; and provide, or arrange for the provision of, translating and other services, and issue or finance publications, leading to a more effective dissemination of relevant scientific information with respect to research conducted in the United States or participating foreign countries.

(d) Programs of an operational nature excepted from assistance

The activities authorized in this section shall not extend to the support of public health, medical care, or other programs of an operational nature as contrasted with research and research training nor shall any of the grants authorized by this section include grants for the improvement or extension of public health administration in other countries except for necessary research and research training in the science of public health and public health administration.

(e) Consultants; advisory committees; compensation and travel expenses

The President is authorized, to the extent he deems it necessary to carry out the purposes of section 2101 of this title, to employ experts and consultants or organizations thereof, as authorized by section 3109 of title 5 and create a committee or committees to be composed entirely of persons who are citizens of the United States to advise him in the administration of this chapter, individuals so employed and members of committees shall be entitled to receive compensation at a rate to be fixed by the President, but not to exceed $50 per diem, including travel time, and while away from their homes or regular places of business they may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5 for persons in the Government service employed intermittently.

(f) Delegation of authority; regulations

The President may delegate any authority vested in him by this section to the Secretary of Health, Education, and Welfare. The Secretary may from time to time issue such regulations as may be necessary to carry out any authority which is delegated to him under this section, and may delegate performance of any such authority to the Surgeon General of the Public Health Service, the Director of the Office of Vocational Rehabilitation, the Chief of the Children’s Bureau, or other subordinates acting under his direction.

(g) Use of foreign currencies and credits

In order to carry out the purposes of section 2101 of this title, and subject to section 1306 of title 31, the President may use or enter into agreements with foreign nations or organizations of nations to use the foreign currencies which accrue under title I of the Food for Peace Act [7 U.S.C. 1701 et seq.], and the Mutual Security Act of 1954, or which are otherwise available for utilization by the United States. The President is authorized to agree to the utilization by foreign nations, for programs designed to carry out
the purposes of section 2101 of this title in cooperation with the United States, of amounts deposited in special accounts pursuant to section 142(b) of the Mutual Security Act of 1954, to the extent that the amounts in such accounts exceed the requirements of other programs covered by such section 142(b). Such utilization of amounts in special accounts shall be without regard to the second proviso in clause (iii) of such section 142(b).

(i) Definitions

For the purposes of this section—

(1) the term “health research” shall include, but not be limited to, research, investigations, and studies relating to causes and methods of prevention of accidents, including but not limited to highway and aviation accidents.

(2) the term “participating foreign countries” means those foreign countries which cooperate with the United States in carrying out the purposes of this section.

References in Text

This chapter, referred to in subssecs. (c) and (e), was in the original “this joint resolution”, which enacted this chapter and section 308 of the Public Health Service Act (act July 1, 1944, ch. 373, 58 Stat. 682). Such section 308 was redesignated section 307 by Pub. L. 93–353, July 23, 1974, title I, § 106, 88 Stat. 367, and is classified to section 2421 of Title 42, The Public Health and Welfare.

The Food for Peace Act, referred to in subsec. (g), is act July 10, 1954, ch. 469, 68 Stat. 454, which is classified generally to chapter 41 (§ 1691 et seq.) of Title 7, Agriculture. Title I of the Act is classified to subchapter II (§ 1701 et seq.) of chapter 41 of Title 7. For complete classification of this Act to the Code, see Short Title note set out under section 1691 of Title 7 and Tables.

Section 142(b) of the Mutual Security Act of 1954, referred to in subsec. (g), was classified to section 1852 of this title, and was repealed by Pub. L. 87–195, pt. III, § 642(a)(2), Sept. 4, 1961, 75 Stat. 460.

Codification

§ 2104. Authority of Federal officers and agencies unaffected

Nothing in this chapter shall be construed to repeal or restrict authority vested in the President, the Secretary of State, the Secretary of Health, Education, and Welfare, the Surgeon General of the Public Health Service, or any other officer or agency of the United States by any other provision of law.

(Pub. L. 86–610, § 6, July 12, 1960, 74 Stat. 369.)
