§ 8623. State allotments

(a) Amount; distribution, computation, etc.

(1) (A) Except as provided in subparagraph (B), the Secretary shall, from that percentage of the amount appropriated under section 8621 (b) of this title for each fiscal year which is remaining after reserving any amount permitted to be reserved under section 8628a of this title and after the amount of allotments for such fiscal year under subsection (b)(1) of this section is determined by the Secretary, allot to each State an amount equal to such remaining percentage multiplied by the State’s allotment percentage.

(B) From the sums appropriated therefor after reserving any amount permitted to be reserved under section 8628a of this title, if for any period a State has a plan which is described in section 8624 (c) of this title, the Secretary shall pay to such State an amount equal to 100 percent of the expenditures of such State made during such period in carrying out such plan, including administrative costs (subject to the provisions of section 8624 (b)(9)(B) of this title), with respect to households described in section 8624 (b)(2) of this title.

(2) For purposes of paragraph (1), for fiscal year 1985 and thereafter, a State’s allotment percentage is the percentage which expenditures for home energy by low-income households in that State bears to such expenditures in all States, except that States which thereby receive the greatest proportional increase in allotments by reason of the application of this paragraph from the amount they received pursuant to Public Law 98–139 shall have their allotments reduced to the extent necessary to ensure that—

(A) (i) no State for fiscal year 1985 shall receive less than the amount of funds the State received in fiscal year 1984; and
(ii) no State for fiscal year 1986 and thereafter shall receive less than the amount of funds the State would have received in fiscal year 1984 if the appropriations for this subchapter for fiscal year 1984 had been $1,975,000,000, and

(B) any State whose allotment percentage out of funds available to States from a total appropriation of $2,250,000,000 would be less than 1 percent, shall not, in any year when total appropriations equal or exceed $2,250,000,000, have its allotment percentage reduced from the percentage it would receive from a total appropriation of $2,140,000,000.

(3) If the sums appropriated for any fiscal year for making grants under this subchapter are not sufficient to pay in full the total amount allocated to a State under paragraph (1) for such fiscal year, the amount which all States will receive under this subchapter for such fiscal year shall be ratably reduced.

(4) For the purpose of this section, the Secretary shall determine the expenditure for home energy by low-income households on the basis of the most recent satisfactory data available to the Secretary.

(b) Allotments to insular areas

(1) The Secretary shall apportion not less than one-tenth of 1 percent, and not more than one-half of 1 percent, of the amounts appropriated for each fiscal year to carry out this subchapter on the basis of need among the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands of the United States, and the Commonwealth of the Northern Mariana Islands. The Secretary shall determine the total amount to be apportioned under this paragraph for any fiscal year (which shall not exceed one-half of 1 percent) after evaluating the extent to which each jurisdiction specified in the preceding sentence requires assistance under this paragraph for the fiscal year involved.

(2) Each jurisdiction to which paragraph (1) applies may receive grants under this subchapter upon an application submitted to the Secretary containing provisions which describe the programs for which assistance is sought under this subchapter, and which are consistent with the requirements of section 8624 of this title.

(c) Energy crisis intervention

Of the funds available to each State under subsection (a) of this section, a reasonable amount based on data from prior years shall be reserved until March 15 of each program year by each State for energy crisis intervention. The program for which funds are reserved by this subsection shall be administered by public or nonprofit entities which have experience in administering energy crisis programs under the Low-Income Energy Assistance Act of 1980, or under this subchapter, experience in assisting low-income individuals in the area to be served, the capacity to undertake a timely and effective energy crisis intervention program, and the ability to carry out the program in local communities. The program for which funds are reserved under this subsection shall—

(1) not later than 48 hours after a household applies for energy crisis benefits, provide some form of assistance that will resolve the energy crisis if such household is eligible to receive such benefits;

(2) not later than 18 hours after a household applies for crisis benefits, provide some form of assistance that will resolve the energy crisis if such household is eligible to receive such benefits and is in a life-threatening situation; and

(3) require each entity that administers such program—

(A) to accept applications for energy crisis benefits at sites that are geographically accessible to all households in the area to be served by such entity; and

(B) to provide to low-income individuals who are physically infirm the means—

(i) to submit applications for energy crisis benefits without leaving their residences; or

(ii) to travel to the sites at which such applications are accepted by such entity.

The preceding sentence shall not apply to a program in a geographical area affected by a natural disaster in the United States designated by the Secretary, or by a major disaster or
emergency designated by the President under the Disaster Relief Act of 1974 \[^1\] [42 U.S.C. 5121 et seq.], for so long as such designation remains in effect, if the Secretary determines that such disaster or such emergency makes compliance with such sentence impracticable.

(d) Allotments to Indian tribes

(1) If, with respect to any State, the Secretary—
   (A) receives a request from the governing organization of an Indian tribe within the State that assistance under this subchapter be made directly to such organization; and
   (B) determines that the members of such tribe would be better served by means of grants made directly to provide benefits under this subchapter;
the Secretary shall reserve from amounts which would otherwise be payable to such State from amounts allotted to it under this subchapter for the fiscal year involved the amount determined under paragraph (2).

(2) The amount determined under this paragraph for a fiscal year is the amount which bears the same ratio to the amount which would (but for this subsection) be allotted to such State under this subchapter for such fiscal year (other than by reason of section 8626 (b)(2) of this title) as the number of Indian households described in subparagraphs (A) and (B) of section 8624 (b)(2) of this title and residing within the State on the reservation of the tribes or on trust lands adjacent to such reservation bears to the number of all households described in subparagraphs (A) and (B) of section 8624 (b)(2) of this title in such State, or such greater amount as the Indian tribe and the State may agree upon. In cases where a tribe has no reservation, the Secretary, in consultation with the tribe and the State, shall define the number of Indian households for the determination under this paragraph.

(3) The sums reserved by the Secretary on the basis of a determination under this subsection shall be granted to—
   (A) the tribal organization serving the individuals for whom such a determination has been made; or
   (B) in any case where there is no tribal organization serving an individual for whom such a determination has been made, such other entity as the Secretary determines has the capacity to provide assistance pursuant to this subchapter.

(4) In order for a tribal organization or other entity to be eligible for an amount under this subsection for a fiscal year, it shall submit to the Secretary a plan (in lieu of being under the State’s plan) for such fiscal year which meets such criteria as the Secretary may by regulations prescribe.

(e) Allotment of emergency funds

Notwithstanding subsections (a) through (d) of this section, the Secretary may allot amounts appropriated pursuant to section 8621 (e) of this title to one or more than one State. In determining whether to make such an allotment to a State, the Secretary shall take into account the extent to which the State was affected by the natural disaster or other emergency involved, the availability to the State of other resources under the program carried out under this subchapter or any other program, and such other factors as the Secretary may find to be relevant. Not later than 30 days after making the determination, but prior to releasing an allotted amount to a State, the Secretary shall notify Congress of the allotments made pursuant to this subsection.

(3) conduct outreach activities designed to assure that eligible households, especially households with elderly individuals or disabled individuals, or both, and households with high home energy burdens, are made aware of the assistance available under this subchapter, and any similar energy-related assistance available under subtitle B of title VI (relating to community services block grant program) [42 U.S.C. 9901 et seq.] or under any other provision of law which carries out programs which were administered under the Economic Opportunity Act of 1964 [42 U.S.C. 2701 et seq.] before August 13, 1981;

(8) provide assurances that (A) the State will not exclude households described in clause (2)(B) of this subsection from receiving home energy assistance benefits under clause (2), and (B) the State will treat owners and renters equitably under the program assisted under this subchapter;

(16) use up to 5 percent of such funds, at its option, to provide services that encourage and enable households to reduce their home energy needs and thereby the need for energy assistance, including needs assessments, counseling, and assistance with energy vendors, and report to the Secretary concerning the impact of such activities on the number of households served, the level of direct benefits provided to those households, and the number of households that remain unserved.

The Secretary may not prescribe the manner in which the States will comply with the provisions of this subsection. The Secretary shall issue regulations to prevent waste, fraud, and abuse in the programs assisted by this subchapter.

Such audits shall be made public within the State on a timely basis. The audits shall be conducted in accordance with chapter 75 of title 31.

Clarification on Utility Allowances

“(a) Eligibility.—Tenants who—

“(1) are responsible for making out-of-pocket payments for utility bills; and

“(2) receive energy assistance through utility allowances that include energy costs under programs identified in subsection (c);

shall not have their eligibility or benefits under other programs designed to assist low-income people with increases in energy costs since 1978 reduced or eliminated, except as provided in subsection (d).

“(b) Equal Treatment in Benefit Programs.—Tenants described in subsection (a) shall be treated identically with other households eligible for or receiving energy assistance, including in the determination of the home energy costs for which they are individually responsible and in the determination of their incomes for any program in which eligibility or benefits are based on need, except as provided in subsection (d).

“(d) Special Rule for Low-Income Home Energy Assistance Program.—For purposes of the Low-Income Home Energy Assistance Program, tenants described in subsection (a)(2) who are responsible for paying some or all heating or cooling costs shall not have their eligibility automatically denied. The size of any reduction in Low-Income Home Energy Assistance Program benefits must be reasonably related to the amount of the heating or cooling component of the utility allowance received and must ensure that the highest level of assistance will be furnished to those households with the lowest incomes and the highest energy costs in relation to income, taking into account family size, in compliance with section 2605(b)(5) of the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8624 (b)(5)).”

executive officer of the State and shall request him to secure compliance. If within a reasonable period

(a) Allotment of funds

Beginning in fiscal year 1992, the Secretary may allocate amounts appropriated under section 8621 (d) of this title to provide supplementary funds to States that have acquired non-Federal leveraged resources for the program established under this subchapter.

(b) “Leveraged resources” defined

For purposes of this section, the term “leveraged resources” means the benefits made available to the low-income home energy assistance program of the State, or to federally qualified low-income households, that—

(1) represent a net addition to the total energy resources available to State and federally qualified households in excess of the amount of such resources that could be acquired by such households through the purchase of energy at commonly available household rates; and

(2) (A) result from the acquisition or development by the State program of quantifiable benefits that are obtained from energy vendors through negotiation, regulation or competitive bid; or

(B) are appropriated or mandated by the State for distribution—

(i) through the State program; or

(ii) under the plan referred to in section 8624 (c)(1)(A) of this title to federally qualified low-income households and such benefits are determined by the Secretary to be integrated with the State program.

(c) Formula for distribution of amounts

(1) Distribution of amounts made available under this section shall be based on a formula developed by the Secretary that is designed to take into account the success in leveraging existing appropriations in the preceding fiscal year as measured under subsection (d) of this section. Such formula shall take into account the size of the allocation of the State under this subchapter and the ratio of leveraged resources to such allocation.

(2) A State may expend funds allocated under this subchapter as are necessary, not to exceed 0.08 percent of such allocation or $35,000 each fiscal year, whichever is greater, to identify, develop, and demonstrate leveraging programs. Funds allocated under this section shall only be used for increasing or maintaining benefits to households.

(d) Dollar value of leveraged resources
Each State shall quantify the dollar value of leveraged resources received or acquired by such State under this section by using the best available data to calculate such leveraged resources less the sum of any costs incurred by the State to leverage such resources and any cost imposed on the federally eligible low-income households in such State.

(e) Report to Secretary

Not later than 2 months after the close of the fiscal year during which the State provided leveraged resources to eligible households, as described in subsection (b) of this section, each State shall prepare and submit, to the Secretary, a report that quantifies the leveraged resources of such State in order to qualify for assistance under this section for the following fiscal year.

(f) Determination of State share; regulations; documentation

The Secretary shall determine the share of each State of the amounts made available under this section based on the formula described in subsection (c) of this section and the State reports. The Secretary shall promulgate regulations for the calculation of the leveraged resources of the State and for the submission of supporting documentation. The Secretary may request any documentation that the Secretary determines necessary for the verification of the application of the State for assistance under this section.

(B) have the potential for being replicable model designs for other programs.

States shall use such supplemental funds for the implementation and evaluation of the energy efficiency education services.
