(2) except as the Secretary may provide in emergency or other circumstances which would not impair the objectives of this chapter, all other grain transferred out of and all grain transferred into an export elevator at an export port location shall be officially weighed in accordance with such standards or procedure: Provided, That, unless the shipper or receiver requests that the grain be officially weighed, intracompany shipments of grain into an export elevator by any mode of transportation, grain transferred into an export elevator by transportation modes other than barge, and grain transferred out of an export elevator to destinations within the United States shall not be officially weighed; and

(3) except as otherwise authorized by the Secretary, whenever a lot of grain is both officially inspected and officially weighed while being transferred into or out of a grain elevator, warehouse, or other storage or handling facility, an official certificate shall be issued showing both the official grade designation and the certified weight of the lot of grain.

(b) Supervision by representatives of Secretary

All official inspection and official weighing, whether performed by authorized employees of the Secretary or any other person licensed under section 84 of this title, shall be supervised by representatives of the Secretary, in accordance with such regulations as the Secretary may provide.

(c) Testing for aflatoxin contamination of corn shipped in foreign commerce
