§ 2461. Public-private competition required before conversion to contractor performance

(a) Public-Private Competition.—

(I) No function of the Department of Defense performed by Department of Defense civilian employees may be converted, in whole or in part, to performance by a contractor unless the conversion is based on the results of a public-private competition that—

(A) formally compares the cost of performance of the function by Department of Defense civilian employees with the cost of performance by a contractor;

(B) creates an agency tender, including a most efficient organization plan, in accordance with Office of Management and Budget Circular A–76, as implemented on May 29, 2003, or any successor circular;

(C) includes the issuance of a solicitation;

(D) determines whether the submitted offers meet the needs of the Department of Defense with respect to factors other than cost, including quality, reliability, and timeliness;

(E) examines the cost of performance of the function by Department of Defense civilian employees and the cost of performance of the function by one or more contractors to demonstrate whether converting to performance by a contractor will result in savings to the Government over the life of the contract, including—

(i) the estimated cost to the Government (based on offers received) for performance of the function by a contractor;

(ii) the estimated cost to the Government for performance of the function by Department of Defense civilian employees; and

(iii) an estimate of all other costs and expenditures that the Government would incur because of the award of such a contract;

(F) requires continued performance of the function by Department of Defense civilian employees unless the difference in the cost of performance of the function by a contractor compared to the cost of performance of the function by Department of Defense civilian employees would, over all performance periods required by the solicitation, be equal to or exceed the lesser of—

(i) 10 percent of the personnel-related costs for performance of that function in the agency tender; or

(ii) $10,000,000;

(G) requires that the contractor shall not receive an advantage for a proposal that would reduce costs for the Department of Defense by—

(i) not making an employer-sponsored health insurance plan (or payment that could be used in lieu of such a plan), health savings account, or medical savings account available to the workers who are to be employed to perform the function under the contract;

(ii) offering to such workers an employer-sponsored health benefits plan that requires the employer to contribute less towards the premium or subscription share than the amount that is paid by the Department of Defense for health benefits for civilian employees of the Department under chapter 89 of title 5; or
(iii) offering to such workers a retirement benefit that, in any year, costs less than the annual retirement cost factor applicable to civilian employees of the Department of Defense under chapter 84 of title 5; and

(H) examines the effect of performance of the function by a contractor on the military mission associated with the performance of the function.

(2) A function that is performed by the Department of Defense and is reengineered, reorganized, modernized, upgraded, expanded, or changed to become more efficient, but still essentially provides the same service, shall not be considered a new requirement.

(3) In no case may a function being performed by Department of Defense personnel be—

(A) modified, reorganized, divided, or in any way changed for the purpose of exempting the conversion of the function from the requirements of this section; or

(B) converted to performance by a contractor to circumvent a civilian personnel ceiling.

(4) A military department or Defense Agency may not be required to conduct a public-private competition under Office of Management and Budget Circular A–76 or any other provision of law at the end of the performance period specified in a letter of obligation or other agreement entered into with Department of Defense civilian employees pursuant to a public-private competition for any function of the Department of Defense performed by Department of Defense civilian employees.

(5) (A) Except as provided in subparagraph (B), the duration of a public-private competition conducted pursuant to Office of Management and Budget Circular A–76 or any other provision of law for any function of the Department of Defense performed by Department of Defense civilian employees may not exceed a period of 24 months, commencing on the date on which the preliminary planning for the public-private competition begins and ending on the date on which a performance decision is rendered with respect to the function.

(B) (i) The Secretary of Defense may specify an alternative period of time for a public-private competition, which may not exceed 33 months, if the Secretary—

(I) determines that the competition is of such complexity that it cannot be completed within 24 months; and

(II) submits to Congress, as part of the formal congressional notification of a public-private competition pursuant to subsection (c), written notification that explains the basis of such determination.

(ii) The notification under clause (i)(II) shall also address each of the following:

(I) Any efforts of the Secretary to break up the study geographically or functionally.

(II) The Secretary’s justification for undertaking a public-private competition instead of using internal reengineering alternatives.

(III) The cost savings that the Secretary expects to achieve as a result of the public-private competition.

(iii) If the Secretary specifies an alternative time period under this subparagraph, the alternative time period shall be binding on the Department in the same manner and to the same extent as the limitation provided in subparagraph (A).

(C) The time period specified in subparagraph (A) for a public-private competition does not include any day during which the public-private competition is delayed by reason of the filing of a protest before the Government Accountability Office or a complaint in the United States Court of Federal Claims up until the day the decision or recommendation of either authority becomes final. In the case of a protest before the Government Accountability Office, the recommendation becomes final after the period of time for filing a request for reconsideration, or if a request for reconsideration is filed, on the day the Government Accountability Office issues a decision on the reconsideration.
(D) If a protest with respect to a public-private competition before the Government Accountability Office or the United States Court of Federal Claims is sustained, and the recommendation is final as described in subparagraph (C), and if such protest and recommendation result in an unforeseen delay in implementing a final performance decision, the Secretary of Defense may terminate the public-private competition or extend the period of time specified for the public-private competition under subparagraph (A) or subparagraph (B). If the Secretary decides not to terminate a competition, the Secretary shall submit to Congress written notice of such decision. Any such notification shall include a justification for the Secretary’s decision and a new time limitation for the competition, which shall not exceed 12 months from the final decision and shall be binding on the Department.

(E) For the purposes of this paragraph, preliminary planning with respect to a public-private competition shall be conducted in accordance with guidance and procedures that shall be issued and maintained by the Under Secretary of Defense for Personnel and Readiness and shall begin on the date on which a component of the Department of Defense first obligates funds specifically for the acquisition of contract support for the preliminary planning effort, or formally assigns Department of Defense personnel, to carry out any of the following activities:

(i) Determining the scope of the public-private competition.

(ii) Conducting research to determine the appropriate grouping of functions for the competition.

(iii) Assessing the availability of workload data, quantifiable outputs of functions, and agency or industry performance standards applicable to the competition.

(iv) Determining the baseline cost of any function for which the competition is conducted.

(F) To effectively establish the date that is the first day of preliminary planning for a public-private competition, the head of a military department or Defense Agency shall submit to Congress written notice of the actions intended to be taken during the preliminary planning process and shall provide public notice of such actions by announcing such date on an appropriate Internet website and through other means as determined necessary. The date of such announcement shall be used for the purpose of computing the duration of the public private competition for purposes of this section.

(G) The Secretary of Defense shall submit to the congressional defense committees an annual report on the use, during the year covered by the report, of alternative time periods for public-private competitions under this section, and the explanations of the Secretary for such alternative time periods.

(b) Requirement to Consult DOD Employees.—

(1) Each officer or employee of the Department of Defense responsible for determining under Office of Management and Budget Circular A–76 whether to convert to contractor performance any function of the Department of Defense—

(A) shall, at least monthly during the development and preparation of the performance work statement and the management efficiency study used in making that determination, consult with civilian employees who will be affected by that determination and consider the views of such employees on the development and preparation of that statement and that study; and

(B) may consult with such employees on other matters relating to that determination.

(2) (A) In the case of employees represented by a labor organization accorded exclusive recognition under section 7111 of title 5, consultation with representatives of that labor organization shall satisfy the consultation requirement in paragraph (1).

(B) In the case of employees other than employees referred to in subparagraph (A), consultation with appropriate representatives of those employees shall satisfy the consultation requirement in paragraph (1).
(C) The Secretary of Defense shall prescribe regulations to carry out this subsection. The regulations shall include provisions for the selection or designation of appropriate representatives of employees referred to in subparagraph (B) for purposes of the consultation required by paragraph (1).

(c) Congressional Notification.—

(B) The location at which the function is performed by Department of Defense civilian employees.
(C) The number of Department of Defense civilian employee positions potentially affected.
(D) The anticipated length and cost of the public-private competition, and a specific identification of the budgetary line item from which funds will be used to cover the cost of the public-private competition.
(E) A certification that a proposed performance of the function by a contractor is not a result of a decision by an official of a military department or Defense Agency to impose predetermined constraints or limitations on such employees in terms of man years, end strengths, full-time equivalent positions, or maximum number of employees.

(2) The report required under paragraph (1) shall include an examination of the potential economic effect of performance of the function by a contractor on—

(A) Department of Defense civilian employees who would be affected by such a conversion in performance; and
(B) the local community and the Government, if more than 50 Department of Defense civilian employees perform the function.

(3) (A) A representative individual or entity at a facility where a public-private competition is conducted may submit to the Secretary of Defense an objection to the public-private competition on the grounds that the report required by paragraph (1) has not been submitted or that the certification required by paragraph (1)(E) is not included in the report submitted as a condition for the public-private competition. The objection shall be in writing and shall be submitted within 90 days after the following date:

(i) In the case of a failure to submit the report when required, the date on which the representative individual or an official of the representative entity authorized to pose the objection first knew or should have known of that failure.
(ii) In the case of a failure to include the certification in a submitted report, the date on which the report was submitted to Congress.

(B) If the Secretary determines that the report required by paragraph (1) was not submitted or that the required certification was not included in the submitted report, the function for which the public-private competition was conducted for which the objection was submitted may not be the subject of a solicitation of offers for, or award of, a contract until, respectively, the report is submitted or a report containing the certification in full compliance with the certification requirement is submitted.

(d) Exemption for the Purchase of Products and Services of the Blind and Other Severely Handicapped Persons.— This section shall not apply to a commercial or industrial type function of the Department of Defense that—

(1) is included on the procurement list established pursuant to section 8503 of title 41; or
(2) is planned to be changed to performance by a qualified nonprofit agency for the blind or by a qualified nonprofit agency for other severely handicapped persons in accordance with that Act.
(e) Inapplicability During War or Emergency.— The provisions of this section shall not apply during war or during a period of national emergency declared by the President or Congress.

A, title III, § 388(c), Nov. 18, 1997, 111 Stat. 1714, provided that, not later than Dec. 31, 1998, the Comptroller General was to submit to Congress a report containing the results of a review by the Comptroller General of the demonstration program conducted under section 354 of Pub. “(a) In General.—The Secretary of Defense shall conduct a demonstration program to evaluate the feasibility of using private contractors to audit accounting and procurement records of the Department of Defense in order to identify overpayments made to vendors by the Department.

“(b) Program Requirements.—(1) Under the demonstration program, the Secretary shall, by contract, provide for one or more persons to audit the accounting and procurement records relating to fiscal years after fiscal year 1993 of the working-capital funds and industrial, commercial, and support type activities managed through the Defense Business Operations Fund, except the Defense Logistics Agency to the extent such records have already been audited. The Secretary may enter into more than one contract under the program.

“(2) A contract under the demonstration program shall require the contractor to use data processing techniques that are generally used in audits of private-sector records similar to the records audited under the contract.

“(c) Audit Requirements.—In conducting an audit under the demonstration program, a contractor shall compare Department of Defense purchase agreements (and related documents) with invoices submitted by vendors under the purchase agreements. A purpose of the comparison is to identify, in the case of each audited purchase agreement, the following:

“(1) Any payments to the vendor for costs that are not allowable under the terms of the purchase agreement or by law.

“(2) Any amounts not deducted from the total amount paid to the vendor under the purchase agreement that should have been deducted from that amount on account of goods and services provided to the vendor by the Department.

“(3) Duplicate payments.

“(4) Unauthorized charges.

“(5) Other discrepancies between the amount paid to the vendor and the amount actually due the vendor under the purchase agreement.

“(d) Collection Method.—(1) In the case of an overpayment to a vendor identified under the demonstration program, the Secretary shall consider the use of the procedures specified in section 32.611 of the Federal Acquisition Regulation, regarding a setoff against existing invoices for payment to the vendor, as the first method by which the Department seeks to recover the amount of the overpayment (and any applicable interest and penalties) from the vendor.

“(2) The Secretary of Defense shall be solely responsible for notifying a vendor of an overpayment made to the vendor and identified under the demonstration program and for recovering the amount of the overpayment (and any applicable interest and penalties) from the vendor.

“(e) Fees for Contractor.—The Secretary shall pay to the contractor under the contract entered into under the demonstration program an amount not to exceed 25 percent of the total amount recovered by the Department (through the collection of overpayments and the use of setoffs) solely on the basis of information obtained as a result of the audits performed by the contractor under the program. When an overpayment is recovered through the use of a setoff, amounts for the required payment to the contractor shall be derived from funds available to the working-capital fund or industrial, commercial, or support type activity for which the overpayment is recovered.”

“(B) provides for the performance by employees of the Department of only those travel functions, such as travel authorization, that the Secretary considers to be necessary to be performed by such employees.

“(3) Each test required by this subsection shall begin not later than 60 days after the date of the enactment of this Act [Feb. 10, 1996] and end two years after the date on which it began. Each such test shall also be conducted in accordance with the guidelines for travel management issued for the Department by the Under Secretary of Defense (Comptroller).

“(c) Evaluation Criteria.—The Secretary shall establish criteria to evaluate the travel processes tested under subsection (b). The criteria shall, at a minimum, include the extent to which a travel process provides for the following:

“(3) The coordination of credit card data and travel reservation data with cost estimate data.

“(4) The elimination of the need for multiple travel approvals through the coordination of such data with proposed travel plans.

“(5) A responsive and flexible management information system that enables the Under Secretary of Defense (Comptroller) to monitor travel expenses throughout the year, accurately plan travel budgets for future years, and assess, in the case of travel of an employee on temporary duty, the relationship between the cost of the travel and the value of the travel to the accomplishment of the mission which necessitates the travel.

“(d) Plan for Program.—Before conducting the program, the Secretary shall develop a plan for the program that addresses the following:

“(4) The evaluation criteria established pursuant to subsection (c).

“(5) A provision for implementing throughout the Department the travel process determined to be the better option to effectively manage travel of Department personnel on the basis of a final assessment of the results of the program.

“(e) Report.—After the first full year of the conduct of the tests required by subsection (b), the Secretary shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report on the implementation of the program. The report shall include an analysis of the evaluation criteria established pursuant to subsection (c).”

“(C) A specification of all legislative and regulatory impediments to converting the performance of activities identified under paragraph (1) to performance by private-sector sources.

“(D) The views of the Secretary on the desirability of terminating the applicability of OMB Circular A–76 to the Department.
