“(b) Selection of Scrapping Facilities.—The Secretary of Transportation may scrap obsolete vessels pursuant to section 6(c)(1) of the National Maritime Heritage Act of 1994 (16 U.S.C. 5405 (c)(1)) through qualified scrapping facilities,
using the most expeditious scrapping methodology and location practicable. Scrapping facilities shall be selected under that section on a best value basis consistent with the Federal Acquisition Regulation, as in effect on the date of the enactment of this Act [Oct. 30, 2000], without any predisposition toward foreign or domestic facilities taking into consideration, among other things, the ability of facilities to scrap vessels—

“(1) at least cost to the Government;

“(2) in a timely manner;

“(3) giving consideration to worker safety and the environment; and

“(4) in a manner that minimizes the geographic distance that a vessel must be towed when towing a vessel poses a serious threat to the environment.

“(c) Comprehensive Management Plan.—

“(1) Requirement to develop plan.—The Secretary of Transportation shall prepare, publish, and submit to the Congress by not later than 180 days after the date of the enactment of this Act [probably should be “this subsection”, Jan. 6, 2006] a comprehensive plan for management of the vessel disposal program of the Maritime Administration in accordance with the recommendations made in the Government Accountability Office in report number GAO–05–264, dated March 2005.

“(2) Contents of plan.—The plan shall—

“(A) include a strategy and implementation plan for disposal of obsolete National Defense Reserve Fleet vessels (including vessels added to the fleet after the enactment of this paragraph) in a timely manner, maximizing the use of all available disposal methods, including dismantling, use for artificial reefs, donation, and Navy training exercises;

“(B) identify and describe the funding and other resources necessary to implement the plan, and specific milestones for disposal of vessels under the plan;

“(C) establish performance measures to track progress toward achieving the goals of the program, including the expeditious disposal of ships commencing upon the date of the enactment of this paragraph;

“(D) develop a formal decisionmaking framework for the program; and

“(E) identify external factors that could impede successful implementation of the plan, and describe steps to be taken to mitigate the effects of such factors.

“(A) the management plan submitted under subsection (c); and

“(B) the requirements set forth in paragraph (2).

“(2) Utilization of domestic sources.—In the procurement of services under the vessel disposal program of the Maritime Administration, the Secretary shall—

“(A) use full and open competition; and

“(B) utilize domestic sources to the maximum extent practicable.

“(e) Failure to Submit Plan.—

“(1) Private management contract for disposal of Maritime Administration vessels.—The Secretary of Transportation, subject to the availability of appropriations, shall promptly award a contract using full and open competition to expeditably implement all aspects of disposal of obsolete National Defense Reserve Fleet vessels.

“(2) Application.—This subsection shall apply beginning 180 days after the date of the enactment of this subsection [Jan. 6, 2006], unless the Secretary of Transportation has submitted to the Congress the comprehensive plan required under subsection (c).

“(f) Briefings.—The Maritime Administrator shall, upon request, provide briefings to the Committee on Transportation and Infrastructure, the Committee on Natural Resources, and the Committee on Armed Services of the House of Representatives, and the Committee on Commerce, Science, and Transportation and the Committee on Armed Services of the Senate, on the progress made in recycling vessels, problems encountered with recycling vessels, issues relating to vessel recycling, and other issues relating to vessel recycling and disposal.”
